AMUSEMENT NOTES.

"Sauce for the Goose," With Grace George in Leading Role.

There are so many different kinds of comedies that a glossary would be necessary to list them all. Farce and burlesque, while apparently belonging to the same family, are distinctly unlike, while they, in turn, have nothing in common with the high class comedy in which laughter is provoked by the looseness and cleverness of the lines rather than by any absurdity in the situations. Richard Brinsley Sheridan's "School for Scandal" is an illustration of the delightful humor that can be evoked by comedies of a higher order. The old comedies, indeed, had a charm that few modern writers of comedy have been able to attain. The statement that Geraldine Bonner, in her new comedy of New York life, "Sauce for the Goose," which Grace George will present at the opera house next Monday, April 24, has installed into her work the wit, the keen satire and the human charm that make the old comedies so effective, will, therefore, be received with grateful appreciation by a public that has grown tired of horseplay and piffle on the stage.

The author of "Sauce for the Goose" is, of course, fortunate in having interested Miss George in her play; because she is no American comedienne who is so capable of presenting the varying lights and shades of Kitty Constable, the leading character, so effectively. Jas. S. Metcalfe, of Life, says: "Grace George's work is simply delightful. She has a sense of fun; she is just enough coquettish; she is properly demure at the right moments; she suits herself admirably to many changing moods."

There are the qualities that illumine the character of Kitty Constable, a wife neglected by her husband who triumphs over him ultimately, wins his love and respect by proving herself to be the bright, clever and witty woman, instead of the commonplace wife he conceives her to be. There is the inevitable "other woman" and the "male friend" to give zest to the story and to give it a human interest.

In the admirable company that surrounds Miss George are Frederick Perry, Keith Wakeman, Carolyn Kenyon, E. D. Cromwell, Louise Everts, Herbert Percy and other well known players.

The Way to Save Money in Automobile Buying

IF you are thinking of buying a car, then this statement is of vital importance. Two points are to be considered: first cost, maintenance cost. The HUDSON "33" is the one advanced car of the year. By eliminating the number of parts, by simplifying the design and by producing a great quantity, the quality obtained in the HUDSON "33" is such as is not found in any other car within \$500 of its price. This is not a mere claim. It is a fact easily substantiated. Any investigation you make will confirm that.

IN maintenance cost you have but to look at the record of what other people have done with this car. Let us tell you about it: Its gasoline consumption is extremely low. Very little oil is required, but the greatest saving is due to the fact that the simplicity of design that does away with approximately 900 parts—the extra strong construction—the arrangements for taking up and preventing wear and all the other mechanical details known so well to Howard B. Coffin—the designer of the HUDSON "33"—saves those costs, so inevitable with cars not so well designed.

OUR allotment of HUDSON "33s" is rapidly being exhausted. There will not be enough for all who will want them. Those who decide upon a HUDSON must place their order early to get one this year.

The HUDSON "33" is furnished in three types: a Touring Car at \$1,400, a Pony Touring at \$1,450 and the Torpedo at \$1,500. These prices include complete equipment with dual ignition system, including Bosch magneto, mohair top, Prest-o-Lite gas tank, gas and oil lamps, tools, repair kit, etc. These prices do not include freight from Detroit.

POWELL VS. WOODBURY.

Well Known Case Started in Chittenden County Court.

Burlington, April 18.—The case of Max L. Powell against ex-Gov. Woodbury, C. L. Woodbury and E. P. Woodbury was taken up in Chittenden county court yesterday. This is a suit for \$8,000 and is the first of a series of suits growing out of the settlement of the affairs of the old hotel Burlington burned a year ago or more.

Mr. Powell was trustee of the property and the Woodbury interests secured an injunction restraining him from selling it. He claims that during the time the injunction was in force he had a chance to sell the property for \$25,000 and that after the restraint was removed he sold it at auction for \$17,000 and he sues for the difference. The property was bought at the auction by Mr. Powell.

Fr. Powell appears for himself and is assisted by J. W. Redmond of Newbury and V. A. Bullard of Burlington. The Woodburys are represented by R. E. Brown and E. C. Mower of Burlington.

Kicked by a Mad Horse.

Samuel Biech, of Beeton, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. It's the greatest healer of ulcers, burns, boils, eczema, scalds, cuts, corns, gold-sores, bruises and piles on earth. Try it, 25c at Red Cross Pharmacy.

All sheep love alfalfa, either green or dry. The very nature of the animal makes alfalfa a suitable food for it. Sheep need foods rich in protein.

Raw cabbage makes an excellent feed for cattle, but it cannot be safely fed to horses. Mangels, carrots, beets and turnips will, however, be found good for both horses and cattle if fed raw. They are named here in order of their value.
